

NXP processors

Courses on NXP processors based on ARM cores

ACSYS offers a courses on NXP processors.
Each course details both hardware and software implementation of these processors.
Examples are provided to explain low level programming.

You can see detailed course descriptions of the various trainings by using the above navigation bar. You can also click on course identifiers in the following course briefs hereafter.

NP1 - LPC21XX/LPC22XX microcontroller implementation This course covers NXP ARM-based MCU family
NP2 - LPC17xx microcontroller implementation This course covers NXP Cortex-M3-based LPC17XX MCU family.
